	Examiner James C Yeung	Art Unit 3749	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 1 and 2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- In claim 1, line 4, "(b)(b)" should be changed to -- (b) --.
- In claim 2: line 4, "(b)(b)" should be changed to --(b)--; line 6 "(c)(c)" should be changed to --(c) --; line 8, "(d)(e)" should be changed to -- (e) --; line 9, "(e)(f)" should be changed to -- (f) --; and line 11 "(f)(g)" should be changed to --(g)--.
- In claim 2, each of the recitations "a third gas directing means" in line 9 and "a fourth gas directing means" in line 11 is confusing since there is not "first gas directing means" and/or "second directing means" recited in the claim.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Farber in view of Kataoka.

Farber discloses the invention substantially as claimed. However, Farber does not disclose first, second, third and fourth gas directing means.

Kataoka teaches the use of first, second, third, and fourth gas directing means (37a and 35, Fig. 4) for the purpose of directing heated gases upon the upper and lower surfaces of the object to be heated so as to maximize the heat transfer efficiency.

It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the cooking chamber of Farber with first, second, third and fourth gas directing means such as taught by Kataoka in order to direct the heated gases upon the upper and lower surface of the food product to be heated so as to maximize the heat transfer efficiency.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Guibert is cited to show an oven having first and second gas directing means (14a and 14c, Fig. 2).

Nitzinger (German Pat. 2557867) is cited to show an air-circulating oven for baking and roasting.
